*where bright kids become great students*  
*and everyday successes become*  
*a lifetime of achievements*

Dear Parents,

Scholars' Hall is a nondenominational, multicultural, international school with grades from Junior Kindergarten to Grade 12. Scholars' is registered and inspected by the Ontario Ministry of Education.

Presently there are fifteen different countries represented within our student population. (China, Columbia, France, Germany, Great Britain, India, Ireland, Korea, Mexico, Nigeria, Pakistan, Russia, Scotland, Spain, Somalia, Uganda and United States)

International students of all different levels of English skills, from no spoken English to those who understand, read and write well, attend Scholars' Hall.

Each student is assessed, upon arrival, to determine his or her level to speak, read and write in English with comprehension. Then an ESL plan is implemented. Scholars' can provide one-to-one ESL instruction; an ESL class; modification of the regular curriculum; individual classroom assistance, or additional/extra after school classes.

Each international student attends regular classes with our Canadian students. We permit only three international students with the same first language in each class. This requires our international students to speak English (we also have a no foreign language rule).

In addition we also provide each international student with a Canadian student partner.

All students, including our international students, receive instruction in English, Mathematics, Science, Canadian History & Geography, Computer, Art, Music, Drama, and Physical Education. Scholars' also has a very active sports and House League program.

Scholars' Hall has a number of Home Stay families who live close to our school. These families have been picked because they welcome each international student into their home as a member of their family. We try to place students in Home Stays that have children of the same age.

At Scholars' Hall your child will be cared for as one of our own.

Sincerely,

Frederick T. Gore  
Director of Schools
